Presented by SPE Thermoset Division

Go to spethermosets.org/topcon for more info
and email your abstracts to teri@intuitgroup.com
ASAP if you are interested in presenting.

Thermosets continue to be an advancing material technology in the plastics industry today. The annual **SPE THERMOSET TOPCON** is the world's leading thermoset forum in multiple industries worldwide.

This year's event is on the lovely shores of Lake Monona in Madison, Wisconsin. Inspired by Wisconsin native Frank Lloyd Wright's design, at the peak of his creative powers in 1938, **MONONA TERRACE COMMUNITY AND CONVENTION CENTER** is one of the country's premier conference and convention facilities. It is an architecturally striking structure that connects the State Capital, the cityscape and the community.

Present at the conference and also have fun enjoying **GOLF** at **UNIVERSITY RIDGE GOLF COURSE** and a **CRUISE** of the Madison shoreline via private yacht with deluxe appetizers and beverages with industry peers on **MONDAY MAY 16**, the day before the conference. Spouses and Friends are welcome too!
