

THERMOSET TOPCON

Madison, Wisconsin • May 17-18, 2022

Presented by SPE Thermoset Division

You are cordially invited to attend the annual **SPE® THERMOSET TOPCON** (Conference & Exhibits) May 17 – 18, 2022 at the Monona Terrace Community & Convention Center in Madison, Wisconsin.

This event is designed to educate and update design and production engineers, sales personnel, and management from automotive, heavy truck and off-highway, military and defense, aerospace, transportation, medical, appliance, oil & gas industries and more about the benefits and expanding importance of thermoset composites in vehicles, equipment and products. The event provides excellent networking opportunities and draws approximately 150 speakers, exhibitors, and attendees worldwide.

OEMS ATTEND FOR FREE!

A limited number of free passes are available to OEMs working directly for an OEM defined as original-equipment manufacturers who directly produce vehicles, equipment and products for sale. Registration is easy. Go to <https://spethermosets.org/topcon/> and scroll to the “Register Now” section. Follow the Prompts and in the “What are you registering as?” section – select “OEMs” and the registration fee will be waived.

You will receive confirmation of your registration via email with more information. Passes include access to all keynotes, panel discussions, technical presentations, and networking sessions including breakfasts, lunches and receptions.

We are looking forward to seeing you at the SPE Thermoset TopCon Event!

If you have any questions or would like more info – please contact Teri@intuitgroup.com or 248.701.8003.
