

# THERMOSET TOPCON

Madison, WI • April 30 – May 1, 2024

Presented by SPE Thermoset Division

AT THE MONONA TERRACE COMMUNITY AND CONVENTION CENTER

## CALL FOR PAPERS, SPONSORS & EXHIBITORS

### “THERMOSETS: REINFORCING INDUSTRY”

Present at the **World's Leading Thermoset Technology Conference & Expo** and help educate multiple markets about the benefits of reinforcing products with added value and enabling innovative new and sustainable advancements in industry. Thermoset plastics are the strongest and most versatile materials for automotive; air and ground mobility; civil engineering; building and construction; off-highway equipment; medical; appliance; oil and gas and a wide variety of other applications where structural integrity, lightweighting, and heat and corrosion resistance are important. Abstracts due 2-16 & Papers due 4-1-2024.

Keynotes, Panel Discussions, Technical Presentations and Exhibits featuring the Latest Thermoset Technologies and a Special Program on Growing the Industry will be highlights of the 2024 event. Sponsorship and Exhibit opportunities are available.

- Optional Social Events on April 29 include Golf at University Ridge Golf Course and a Tour of the Polymer Engineering Center at UW – Madison
- Send Abstracts and Sponsorship Inquiries to Teri at [intuitgroup@gmail.com](mailto:intuitgroup@gmail.com) or call 248.701.8003. To register go to: <https://spethermosets.org/topcon/>.
